Agency: Colorado Department of Public Health and Environment

Purpose of Contact: Request to remove the north side of the fence surrounding the 750Pad

Discussion

In order to expedite demolition and removal of the "Barn" or "Mixing Tent" located on the north west corner of the 750pad, the Site would like to remove the fence on the north side of the pad surrounding the storage unit, 750.1. The "Barn" itself has undergone closure under the Closure Description Document for Unit 750.3b, Sludge Stabilization Process. Demolition activities would include dismantling the mixer units, which will be shipped offsite as sealed containers, and dismantling and dispositioning the tent as sanitary waste. The asphalt underneath this area will remain for closure under the CDD for Unit 750.1.

Harlen agreed with removing the fence on the north side to expedite closure.
